HEAVY DUTY TARP

Plany AS deliver a wide variety of tailor-made curtains, cargo deck covers and doors, resistant to icing and delivered with manual or motorized opening. All products are sturdy, lightweight and easy to handle for the crew. Note that textile-based covers also spare you from problems related to noise, corrosion and permanent deformation on components.

THINK FLEXIBLE. THINK TEXTILES.

We love adventures, and who knows what's next? Stories of success emerge through the brave balancing between rapid problem-solving and long-term development and testing. We often think different, so let us know what your next challenge is. We would love to play a part in your story.
